

Why Liberty Health Cover?

Liberty Health is Africa's leading health insurance provider, offering comprehensive health solutions, through Liberty Health Cover (Liberty Blue), to multinationals, corporates, SMEs and individuals through our network of in-country partners.

Each year, we review our benefits to assess and meet our clients' needs, and to ensure that we continue to provide meaningful cover.

We provide meaningful benefits to minimise out-of-pocket expenses and to ensure comprehensive cover. All plans include in-country emergency medical evacuation, as well as regional or international medical emergency evacuation on select plans.

Our policyholders benefit from our direct payment of over 96% of claims to a contracted network of over 7,000 healthcare providers across Africa. This ensures that our members have access to quality care and peace of mind that their claims will be paid on credit, from their available benefits.

Our locally-compliant solutions enable us to charge premiums in local currency, and to provide quality customer care through our 27 in-country offices.

Liberty Health is part of Liberty Group, which has 60 years' experience in the financial services market with a zaAA+ long-term rating from Standard and Poor's.

Liberty is part of the Standard Bank Group, the largest African banking group by assets offering a full range of banking and related financial services.

As a trusted health insurer, Liberty Health has a successful track record providing world-class pan-African healthcare solutions in 27 countries over the past 9 years.

We are committed to investing in the local economies of the countries in which we conduct business on the African continent.
